

RESEARCH CELL (RC-ITSCHWS)

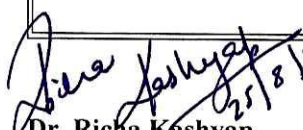

The **Research Cell** at I.T.S. College of Health and Wellness Sciences (ITSCHWS) serves as the institutional body for driving, supporting, and regulating clinical research, undergraduate dissertations, and evidence-based practice in Physiotherapy. The cell fosters an ecosystem of scientific inquiry, interdisciplinary collaboration, and ethical research execution among faculty and Bachelor of Physiotherapy (BPT) students.

Key Objectives & Functions

- **Dissertation & Project Guidance:** Oversees the structural execution, methodology, and scientific rigor of undergraduate dissertations and student research projects.
- **Ethical Oversight:** Evaluates research protocols through the Institutional Ethics Committee to guarantee patient safety, informed consent, and clinical standards.
- **Publication & Metrics Support:** Facilitates faculty and student research submissions to Scopus, Web of Science, and UGC-CARE indexed healthcare journals.
- **Interdisciplinary Innovation:** Collaborates with engineering and technology units (such as the Engineering Innovation Cell - NEW GEN) to develop biomechanical aids, ergonomic solutions, and rehabilitation technology.
- **Research Skill Enhancement:** Organizes workshops, scientific sessions, and hands-on training on research methodology, biostatistics, and clinical trials.
